# Procreate — Wordmark

## Overview

The wordmark "Procreate" is centered on a dark navy blue rounded rectangle. The text is white, with a bold "P" and a registered trademark symbol (®) at the end.

**Procreate®**

The wordmark "Procreate" is centered on a light gray rounded rectangle. The text is black, with a bold "P" and a registered trademark symbol (®) at the end.

**Procreate®**

This is the primary mark we use to represent the brand, company, and also our first product 'Procreate'.

## Procreate — Wordmark

Give it some room

When using the wordmark, use the height of the 'P' to ensure there's enough clear space surrounding it.

# Procreate — Wordmark

## The Do's & Don'ts

- ✓ Primarily use the white Wordmark on brand colors or dark backgrounds.

- ✓ If the background is too light to use the white Wordmark, use the black version.

- ✓ You can place the Wordmark on a texture or image — as long as it remains legible.

- ✗ Do not recolour, add filters, or change the hue, tone, or brightness of the Wordmark.

- ✗ Do not stretch the Wordmark under any circumstances.

- ✗ Do not rotate or flip the Wordmark in any direction.

- ✗ Do not add an outline or stroke to the Wordmark.

- ✗ Do not place a drop shadow or glow behind the Wordmark.

## Procreate — App Icon Overview

This is the 'Procreate' app icon that represents the our illustration product for iPad.

We primarily use this mark to provide context to the product.

*Do not use this to represent our brand or company unless you have express written permission.*

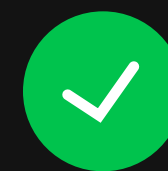

# Procreate — App Icon

## Overview

App icons must always be used with the background frame.

Do not alter or modify in any way (beyond scaling the entire icon).

## Procreate — App Icon

### Relative Size

Ensure the App Icon is not the most prominent part of your content.

In context, the App icon should occupy a minimal footprint on the content itself.

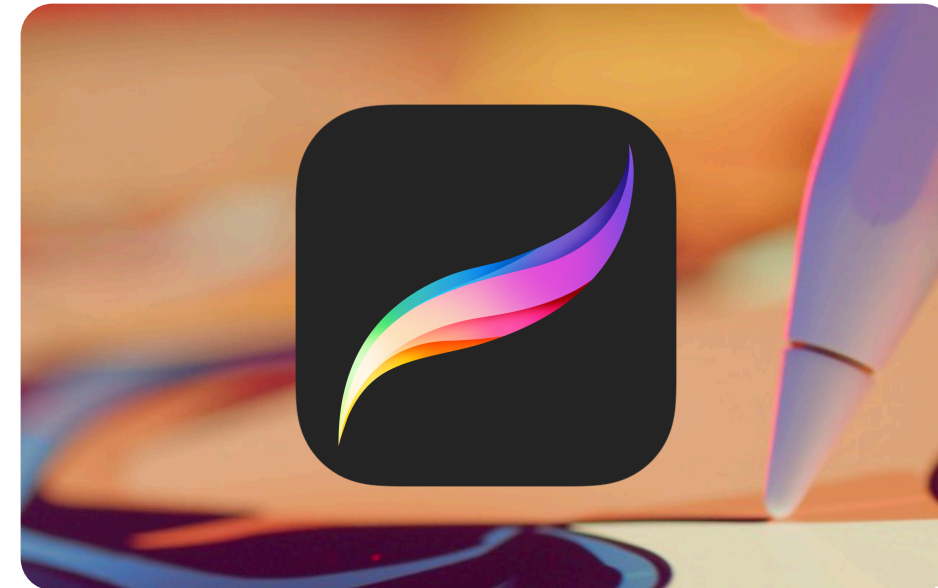

# Procreate — App Icon

## The Do's & Don'ts

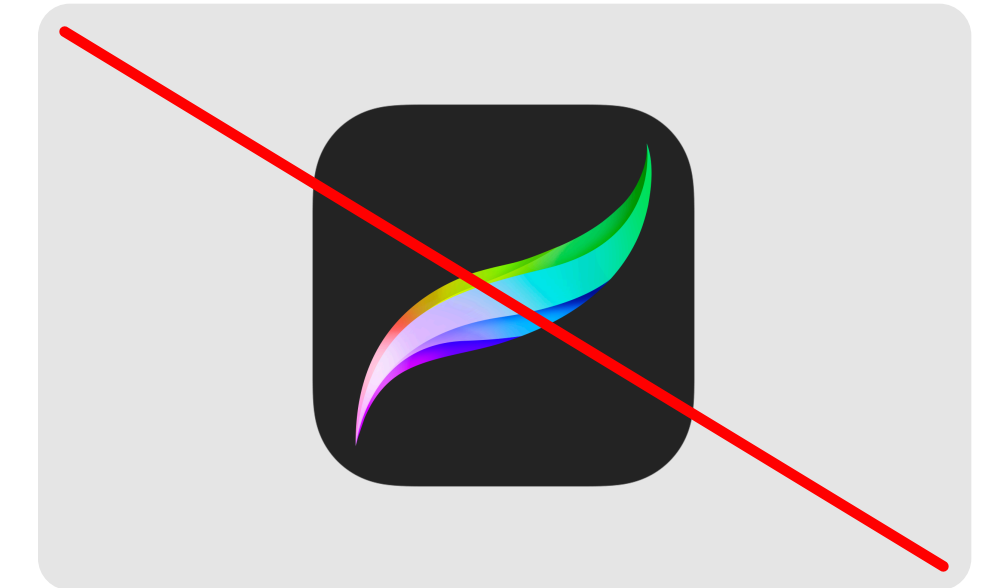

- ✓ Ensure the App Icon contrasts with the background.

- ✓ You can place the App Icon on a texture or image if the icon and frame are clear with adequate contrast.

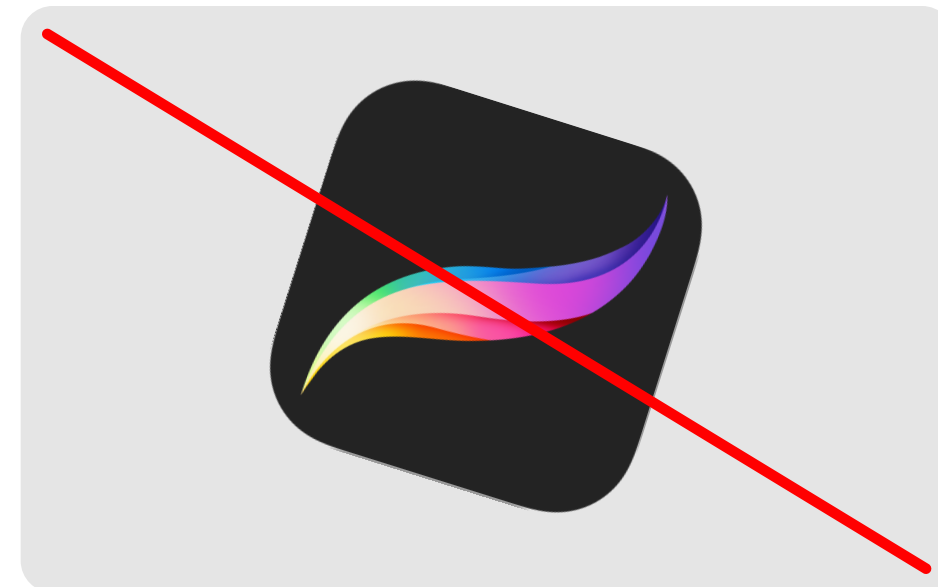

- ✗ Avoid backgrounds that lack adequate contrast to the App Icon.

- ✗ Do not recolour, add filters, or change the hue, tone, or brightness of the App Icon.

- ✗ Do not change the aspect ratio of the App Icon. The ratio must always be 1:1.

- ✗ Do not rotate, flip, or angle the App Icon.

- ✗ Ensure the App Icon is correctly orientated (this is upside down).

- ✗ Do not add a drop shadow to the App Icon.
